Summary

I am a skilled and experienced web developer with three years of expertise in constructing efficient and scalable APIs and other backend services using Golang. Additionally, I specialize in designing accessible, responsive, and interactive webpages using various frontend tools.

Experience

Codemen

Khulna, Bangladesh

Full Stack Developer

04/2021 - 12/2023

- Developed APIs using Golang and implemented gRPC for efficient communication.
- Designed and built websites using Vue.js, TailwindCSS ensuring a responsive and interactive user experience.
- Managed and maintained databases using PostgreSQL.

Kerkuil

Khulna, Bangladesh

Full Stack Developer

01/2023 - Present

- Integrated diverse tools to automate server-side code generation using Golang
- Employed React, TypeScript, and Tailwind CSS to design and develop interactive and responsive websites.

Skills

Backend: GoLang • PostgreSQL • gRPC

Frontend: React • Vue • TailwindCSS • TypeScript • Vanilla Javascript

Education

Daffodil International University

Dhaka, Bangladesh

BSC in CSE

01/2017 - 01/2021

Languages

Banglade Native

English Proficient

Projects

Fintech Solutions

- Contributed in a fintech solution leveraging Golang to create gRPC APIs, manage server-side routing, and handle backend logic.
- Utilized Golang, Tailwind CSS, HTML, and JavaScript for seamless integration of design and interactivity.
- Implemented PostgreSQL for database management, including writing queries to support project requirements.
- Successfully integrated various APIs, such as Western Union, Remitly, Wise etc for sending and receiving remittances.
- Contributed to a comprehensive fintech solution, showcasing a diverse skill set in both backend and frontend development.

Low-code Solution

- Contributed in a low-code platform by utilizing Golang to generate CRUD APIs.
- Worked on a drag and drop UI builder to design webpages for the low-code platform.
- Developed additional webpages using React and Tailwind CSS to enhance the user interface.
